

CONSUMERS ENERGY NEW HOME CONSTRUCTION PROGRAM 2021-2022 TRANSITION UPDATES

In a year where construction felt busier than ever, we wanted to say thank you for your continued support of the New Home Construction (NHC) Program. Due to strong participation and success of the NHC Program, we will reach energy savings targets ahead of schedule. To set us all up for success next year, the NHC Program team will temporarily close the program in November and begin its transition to the 2022 program year.

As always, the program will continue accepting submissions through the remainder of the year. As remaining funding is spent for the year, the program will prioritize projects that are either ENERGY STAR® or HERS 56 or less in Consumers Energy natural gas territories. Rebate payments for projects submitted in 2021 that are not processed by **Oct. 31, 2021** will be paid beginning January 2022. The complete payment schedule can be found below.

Payment of jobs submitted after specified date will be deferred to 2022.
