

HEAT PUMP ELIGIBILITY AND SUBMISSION PROCESS

To limit the amount of incorrectly submitted applications for heat pump rebates, please review the eligibility requirements and submission process for heat pumps below.

- Eligibility Requirements
 - Mini splits: Replacement of any primary electric heat system.
 - Air source/ground source heat pumps: Replacement of existing heat pump only.
 - Customers MUST have the primary electric house heating fuel type.
- Submission Process
 - Navigate to “Primary House Heating Fuel type” section on the application portal.
 - Choose “electric” to populate your choice of electric resistance and heat pumps.
