

HOW PERFORMING COMPREHENSIVE TUNE-UPS CAN HELP GROW YOUR BUSINESS

Our recent heating comprehensive tune-up training webinars, hosted by the Consumers Energy and DTE Energy's Residential Heating, Cooling and Water Heating (HVAC) programs are now available on-demand.

As your ally in promoting energy savings and growing your business, Consumers Energy is offering a rebate to residential customers who have a participating contractor perform comprehensive tune-up services for their heating or cooling equipment. Furnace, boiler and central air conditioner tune-up rebates are designed to make these services more affordable for customers—which means more business for you.

The webinars are now available on-demand for you and your team to watch at your convenience. The on-demand recordings are a great opportunity to train field technicians, service managers and administrative staff on the benefits of comprehensive tune-ups. To view our on-demand webinar recording, please visit the links below.
