

HVAC PROGRAM UPDATE: REMINDER TO SUBMIT ALL APPLICATIONS WITH ECM MOTORS

As we move closer to the end of the year, the Consumers Energy Heating, Cooling and Water Heating (HVAC) program would like to issue a reminder to submit your 2020 program year applications as soon as possible to ensure prompt payment of rebates to your customers. Consumers Energy HVAC applications will be accepted through Dec. 31, 2020 to be paid from 2020 program year funds.

While the Residential HVAC program will continue for program year 2021, please note that due to federal furnace standards changing and ECM motors now being considered part of the standard equipment, **ECM motors will no longer be eligible for a rebate, effective January 2021.**

To ensure your customers receive the ECM portion of their rebate, please be sure to submit all applications that include ECM motors by Dec. 31, 2020 for any Consumers Energy electric or combination (gas and electric) eligible customers.

Additional updates for 2021 program year will be coming soon. If you need assistance with submitting applications, please contact your Account Manager or the [Account Advocate Team](#) directly.

Sincerely,
Account Advocate Team
