

## WHOLE SYSTEM BONUS PROMOTION NOW AVAILABLE

Due to the great success of this offer in 2019, the Consumers Energy and DTE Energy Residential Heating, Cooling and Water Heating (HVAC) programs will again offer a limited-time Whole System Bonus rebate promotion for residential customers.

The following customers\* are eligible for a **\$300 bonus** in addition to standard program rebates:

Natural Gas Utility	Electric Utility	Customer Eligibility
DTE	DTE	Yes
Consumers Energy	Consumers Energy	Yes
DTE	Consumers Energy	Yes
Consumers Energy	DTE	Yes

\*Customers who receive natural gas or electric service from a utility other than Consumers Energy or DTE are **not eligible** for the bonus, but may still receive regular program rebates if eligible. Propane customers are **not eligible** for this bonus. Customers who receive services from both utilities will receive the bonus as \$150 from each utility, in separate checks.

This promotion is available for Consumers Energy or DTE customers who install a 96% AFUE or higher natural gas furnace AND a 16 SEER or higher air conditioner between **May 1 and July 31, 2020** at the same time and at the same premise address.

Participating contractors must use the promo code **WSB2020** when submitting eligible applications with installation dates during the promotion period via the online application tool before **Aug. 30, 2020**.

Equipment must meet AHRI standards and include documented AFUE and SEER in order to qualify. Matched systems must have AHRI certificates showing all the listed components (furnace, evaporator coil and condenser coil) required to verify efficiency level.

Other FAQs about the Whole System Bonus promotion:

- Bonus amount is in addition to any regular equipment program rebates from Consumers Energy or DTE.
- Bonus is not applicable to customers who installed any of these measures outside of the promotion period.
- Bonus is not retroactive for any installations prior to May 1.
- Multiple bonuses are available for addresses with multiple eligible heating and cooling systems installed at the same premise.

If you have any questions about this bonus, please contact your Account Manager or an HVAC Account Advocate at 855-263-5390 (Consumers Energy) or 855-539-1906 (DTE) before submitting your application.

Thank you,  
Consumers Energy & DTE Energy Efficiency Teams
