

Find the right upgrades for you

What kind of features does your family want in a home? Consistent temperatures? Better indoor air quality? Reliable equipment? You shouldn't have to choose just one. That's why Consumers Energy offers **bonus rebates** when you make multiple upgrades at once.

Combination Customers* (electric and natural gas)

Comfort Package **\$650 Rebate**

Say goodbye to drafty rooms, inconsistent temperatures and pesky moisture. Plus, you'll lower your yearly energy use by up to 10 percent* or more if your home is older or especially leaky.

Equipment Package **\$1,450 Rebate**

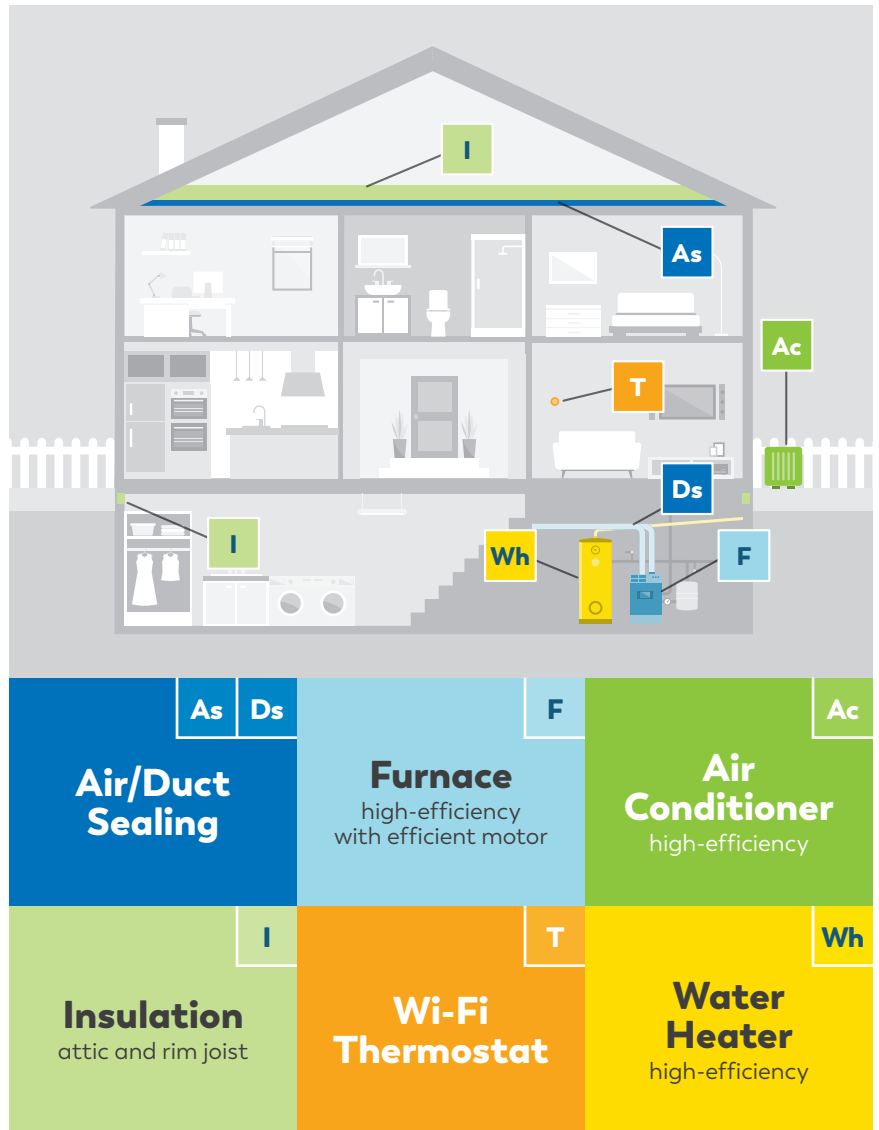

Energy-efficient heating and cooling systems use less energy, run quieter and are more reliable than older models.

Whole-House Package **\$2,120 Rebate**

Cover all the bases for your family. The Whole-House Package includes the upgrades from the other packages and is designed to help you enjoy safety, comfort and energy savings for years to come.

*Natural gas and electric equipment and rebates will vary.

Our mission is Michigan

The Consumers Energy Clean Energy Plan puts us on a path to eliminate coal, reduce carbon emissions by 90 percent and meet customers' future electricity capacity needs by 2040.

Thanks to the listed rebates, you can more easily make energy-efficiency upgrades and help reshape Michigan's energy future.
