

MADE IN MICHIGAN

SUPPORT MICHIGAN'S ECONOMY. LOWER YOUR ENERGY USE.

Maximize your savings on Home Performance with ENERGY STAR® projects **with additional Made in Michigan rebates:**

- Roof (Attic) Insulation
- Above-Grade Wall Insulation
- Kneewall Insulation
- High-Efficiency Natural Gas Storage Water Heater*
- Window/Patio Door Replacement

Ask your participating contractor about Made in Michigan products and equipment that can be used for your next project.

The Made in Michigan program from Consumers Energy allows you to support the local Michigan economy by purchasing energy efficiency home improvement products that are **at least 50 percent manufactured in Michigan.**

- **Manufacturing employs roughly 600,000 people in Michigan.[†]**
- **Every dollar spent on final sales of manufactured products supports \$1.33 in output from other economic sectors.[‡]**

Join fellow Michiganders in helping our state's economy and start saving energy and money now.

LOOKING FOR A CONTRACTOR?

Visit ConsumersEnergy.com/homeperformance or call **866-234-0445** for a list of participating contractors.

All Consumers Energy natural gas, electric and combination customers can participate in the Made in Michigan program. To be eligible for the Made in Michigan incentives, customers must also participate in the Home Performance with ENERGY STAR program with a participating contractor that offers eligible Made in Michigan products. Incentive amounts are valid until Dec. 31, 2019. Funding is limited and available on a first-come, first-served basis.

*Available to Consumers Energy natural gas and combination customers only.
